NOTICE.

Address all telegrams to WABAN CONSERVATORIES, LAKE CROSSING, MASS., and send by the Atlantic and Pacific Lines, as these Companies have placed an office in our Conservatories, which insures immediate despatch.

NOTICE.

WE shall not issue a retail Catalogue for the season of 1878. We have been changing the character of our business from the growth of Plants to that of Fancy Roses and *Cut Flowers*, principally Roses. For the varieties we refer to our Catalogue of 1877. We have a large stock of all the varieties of Plants, Shrubs, etc., described in our Catalogue of 1877, which we intend to close out this season. The prices will be the same as last season, *except for Novelties*. We shall make a discount of fifty per cent, both on *Novelties* in Rose Plants and on all other varieties of *Novelties*. To those who have not our 1877 Retail Catalogue, we will forward one upon application.

Our stock of Plants is finer than last season, and are grown in two and three inch pots, unless otherwise stated. All goods will be sent by express, unless desired to the contrary. Plants from Propagating bed sent by mail.

A moderate charge will be made for packing *large* Plants. Orders exceeding \$10 in amount, plants will be added to assist paying transportation.

Unknown correspondents please accompany their orders with check, P. O. order, or satisfactory reference. Goods delivered free to Express or Freight Office.

SPECIAL NOTICE.

PLANTS FROM PROPAGATING BED.

WHOLESALE.

Packed in good order and delivered f o. b. in Boston at prices following. This list will not include those under the head of Novelties.

PLEASE OBSERVE. — We offer plants taken from propagating bed at less than half the rates taken from pots, which will be to growers the cheapest method of obtaining stock. This method of selling plants, so as to reduce not only the cost of the plant, but also express charges, which will be two-thirds less, was originated, we believe, with this establishment.

Purchasers of plants, by this method, at rates herewith, will find it far cheaper than collecting cuttings at random of varieties of doubtful character and setting themselves. Orders for such should be forwarded as early as possible. For ten thousand plants, special rates will be given.
